The image displays the Redux DevTools interface, showing a Redux state change and the Redux DevTools extension interface.

**Redux State Change:**

- State:** `{ type: "COMPLETE_TODO", id: 1 }`
- Dispatched:** `{ type: "COMPLETE_TODO", id: 1 }`
- Log monitor:** `ADD_TODO`
- Log monitor details:**
  - `action: { 1 key, text: "Add extension's enhancer" }`
  - `state: { 1 key, todos: { 2 items } }`

**Redux DevTools Extension Interface:**

- Inspector:** Shows the state change and the dispatched action.
- Log monitor:** Shows the sequence of actions and the current state.
- Autoselect instances:** Shows the state change and the dispatched action.
- Diff:** Shows the difference between the current state and the previous state.
- Diff details:** `todos (x=0): completed (x=0): false -> true`
